# MORTUARY - PRODUCT

REDUCE FUNERAL COSTS AND  
ACHIEVE A DIGNIFIED LIFE

JIANGSU ROOE MEDICAL TECHNOLOGY CO.,LTD.

ROOE 如翼

ROOE 如翼

ROOE 如翼

As a professional R & D, manufacturing, sales of professional companies, specializing in the production of various series of morgue equipment. Leadership with full-time product engineers, custom manufacturing specialists, and experienced sales and after-sale service personnel capable of meeting virtually every need in the medical or mortuary industry.

ROOE 如翼

Our products are mainly body bags, autopsy embalming table, funeral stretcher, body freezer, coffin elevator. The company continues to improve and launch new products, and can customize all kinds of products according to customer needs, has a professional after-sales service team, to relieve customers' worries.

ROOE 如翼

With the business philosophy of "technological innovation, leading development, first-class quality and service first", the company is committed to establishing a complete and comprehensive competitive product platform to ensure that the company's products are always at the forefront of the market trend. Build a high-level equipment base, create a world leading brand.

#### Features

1. The frame is made of high quality hardened stainless steel pipe.
2. Break system ensures any required descent speed.
3. For ease of operation, the unit is scalable from 62" x 25" to 94" x 38".
4. Each unit of braided tape has a strength of 450 pounds.
5. Flexible drive shaft provides smooth operation on uneven terrain.
6. The cast aluminum head is easily removed to allow access to the internal working parts.
7. The whole ball bearing ensures no noise, easy lifting and long-term service.
8. An adjustable end block ensures that the coffin will not roll off the equipment after positioning.
9. The modular structure of the device, which requires only two people to complete the installation, can be ready for the memorial service in minutes. After disassembly, it is easy to transport and store, and easy to clean.
10. The Optional placer arms are firmly locked in any position to support the coffin.
11. The Optional stand provides a stable platform for your descent device.

## Body and Casket Lifter

The casket lifter will easily handle weights of up to 1,000 pounds. With the help of its nine 4-inch universal casters, you can easily steer this heavy lift through doorways.

### Body And Casket Lifter(Electric)

#### GA004

### Body And Casket Lifter(Hydraulic)

#### GA005

#### Features:

1. Made of an ultra-strong all-steel square tubular construction with a durable powder-coated surface.
2. Comes with four 2-inch adjustable washable nylon mesh straps that can be adjusted to the circumference of any body.
3. You can easily lift the heaviest object from the floor to a cart or table.

Packaging G.W	85kg	

## Collapsible Church Truck

The Church Truck is used for the daily operations of funeral businesses or mortuaries, for displaying coffins and caskets at churches, homes or funerals, and it can also be used as a transport aid for the safe movement of coffins and caskets from point A to Point B.

### Collapsible Church Truck(With Fold-out)

## GA102E

Big caster 15cm(6inch)

Net weight:22kgs Armrest length:18cm

Small caster 12.5(5inch)

Net weight:15kgs Armrest length:25cm

#### Features:

1. Made of strong aluminum tubing, easy to clean.
2. X-frame undercarriage and four rubber casters help to secure the casket.
3. When moved without a casket a special built-in handle allows the truck to be pushed, pulled or carried.
4. 6" rubber wheels roll easily over carpets, windowsills, and other obstacles.
5. When fully folded, the truck is only 6 inches wide for easy storage.
6. Available in silver, bronze, blue-gray or gold finishes.

Aluminum Alloy Coffin Church Trolley

Church Trolley holds the coffin firmly in place. The sturdy aluminum frame will retain its high finish for many years with minimal maintenance.

Aluminum Alloy Coffin Church Trolley

GA103

Features:

1. Durable lightweight aluminum alloy structure.
2. Fixed height bier incorporating rubber rollers.
3. Mainly used for placing coffins.
4. Swivel wheel locks to keep the table still while in use.

Model	GA103	
Size(mm)	1240×480×630	
Loading bearing	≤300kgs

#### Features:

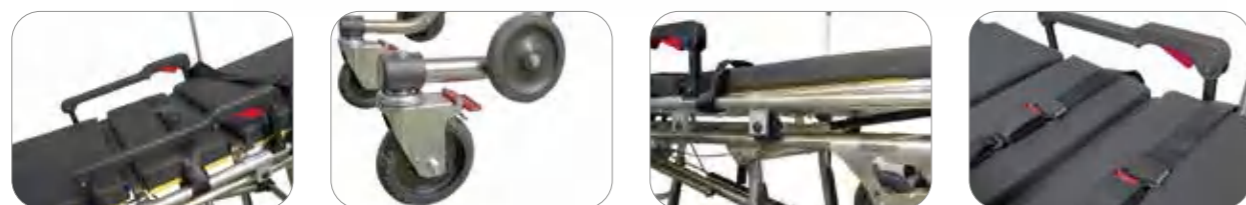

1. The trolley is made of high-strength aluminum, which is light and easy to clean.
2. The height can be easily adjusted by the height handles located at both ends.
3. The mattress is made of black PVC leather, seamless welding, waterproof. Only one person can operate it.
4. Four large wheels with separate brakes that move easily over sidewalk edges and uneven cemetery floors.
5. It can be folded into a compact size for easy storage when not in use.
6. Mainly used for hospital and funeral vehicle transportation.

## Funeral Stretcher

Designed for body transport and other industries, it can be operated and used by one person when picking up, loading and handling, allowing you to place two mortuary cots side by side in a larger vehicle to provide you with maximum transport capacity.

## Funeral Stretcher

### EA-3B1

#### Features:

1. The stretcher is made of high strength aluminum alloy material.
2. The stretcher surface is separable and has a locking device.
3. The height handles at both ends easily adjust the multiple positions, making it very easy to transfer the body.
4. It can be operated by one person when retrieving, loading and transporting.
5. Support all body types with dignity.

Model	High position	Low position	Maximum Angle of the Back	Max Angle of the knee part	Packing Size (1pc/CTN)	Load Bearing	N.W	G.W

## Embalming Table

The sturdy embalming table provides a simple and effective way to help you perform your duties in the mortuary, where operators can work at a height that suits them and drain fluids efficiently.

## Embalming Table

### GA201

Model	GA201	
Size	2080×770×870mm	
Weight	37kgs	
Load bearing	135kgs	
Packing	Quantity	1 set/wooden case
	Size	2150×830×280mm
	G.W	50kgs

## Embalming Table

### GA205

#### Features:

1. Stainless steel top with extra deep trough for easy flow of fluids.
2. It is equipped with 4 quality universal wheels to ensure easy movement of the device.
3. The drain, located in the center of the foot end, quickly eliminates fluid from the table.
4. Each end can be adjusted independently according to individual working height and displacement.
5. Ideal for anticorrosion and transfer.

Model	GA205	
High Position size	2050×770×830mm	
Low Position size	2080×770×990mm	
Wheelbase	1780×690mm	
Weight	45kgs	
Loading bearing	272kgs	
Packing	Quantity	1 set/wooden case
	Size	2120×840×310mm
	G.W	60kgs

Folding Embalming Table

Folding Embalming Table

GA204

Features:

1. Used for preservative, bandaging and transfer.
2. 304 stainless steel countertop, slope drop on the workbench panel for easy drainage.
3. Both ends can be independently adjusted height, easy to form a slope, to meet the demand for drainage.
4. The drain pipe is located in the center of the foot end to quickly remove liquid from the table.
5. Rotating wheel lock keeps table still while in use.
6. The legs can be folded up for storage when not in use.

Model	GA204	
High Position size	2080×780×950mm	
Low Position size	2080×780×820mm	
Self Weight	40kg	
Wheelbase	690×1630 mm	
Load Limit	160kg	
Packing	QTY	Set/Carton
	Size(L*W*H)	2110*880*150mm
	G.W	50kg

## Embalming Table With Cover

The device allows for the covert transfer/transport of deceased patients from hospital wards to mortuaries. The vehicle gives the illusion of being a standard empty gurney, while concealing the body under a special lid.

## Embalming Table With Cover(Cone Shaped Cover)

### GA201A

#### Features:

1. Includes a removable conical lid and hinged lid with swinging latches designed for secure closure.
2. Four casters with brakes for safe placement.
3. The table has a ramp for easy discharge of sewage.
4. The whole working area has ventilation system to eliminate odors and smoke.
5. It is ideal for transporting dead bodies to morgues, hospitals, post mortem stations and laboratories.

Model	GA201A
Width	700mm
Length	2200mm
Table Height	1200mm
Maximum loading	200kg

## Embalming Table With Cover(Round Cover)

### GA201B

#### Features:

1. Made of high quality 304 stainless steel, welding through the quality assurance.
2. Hinged lid with swinging latch, camouflage helps prevent discomfort with other patients and visitors.
3. Four casters with brakes, easy to operate and safe to place.
4. Tables have ramps to drain water to one end and into an optional bucket row that hangs neatly under the frame.
5. The PVC stop valve is located below the drain pipe and is used to stop the flow of fluid while the barrel is being emptied.
6. Ideal for discreet observation in laboratories and all mortuary facilities.

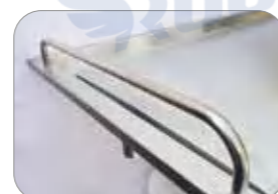

Model	GA201B
Width	830mm
Length	2050mm
Table Height	770mm
Maximum loading	200kg

## Hydraulic Embalming Table

For forensic staff, make sure you have a sturdy table that will last for years. High quality products are essential for the most accurate embalming and autopsy procedures.

## Hydraulic Embalming Table

### GA202

#### Features:

1. High quality 304 stainless steel counter tops for easy cleaning.
2. There are two options for tabletop: 2050×820mm or oversized top: 2160×900mm.
3. Anti-fouling plastic base to keep product appearance clean.
4. There are grooves on all sides, designed for draining liquids.
5. Three pedals can quickly adjust the height and Angle.
6. Eight-inch casters are easier to move.
7. Applies to hospitals, coroner's facilities and morgues.

Model	Max Height	Min Height	Load Capacity	Trendelenburg	Reverse Trendelenburg	Stainless Steel Top	
						Standard top	Oversized top
GA202	1000mm	700mm	650 lbs (295 kg)	0°-10°	0°-10°	2050×820mm	2160×900mm

## Hydraulic Embalming Table With Ventilation

### GA202 Plus

#### Features:

1. The table is made of 304 stainless steel. The recessed design completely wraps the recessed area of the table top.
2. Hydraulic system controls the whole lifting. Countertops can be flat or tilted at different angles.
3. Double countertops. The upper level is two detachable perforated countertops and the lower level is the exhaust drain countertop.
4. 8-inch casters for central brake control for easy steering and movement.
5. The bottom of the table is provided with an exhaust pipe and air volume regulating valve.

Model	Length	Width	Height
GA202 Plus	218cm	80cm	80-110cm

# Mortuary Folding Dressing Table

## GA204A

### Features:

- 1. Laminated top prevents scratches and stains and is easy to maintain.
- 2. Separate locking mechanism will fix the table in the folding position.
- 3. There are two handles on both sides of the table for easy movement.
- 4. Ideal for dressing, transferring, and embalming.
- 5. When not in use, it can be folded and stored behind a door or in a closet.

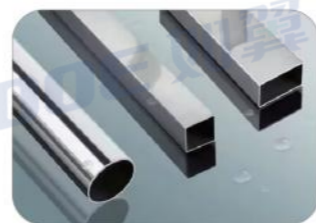

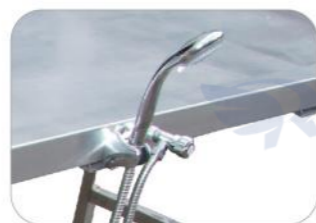

Model	Open size	Folded size	Package size	Gross weight
GA204A	1980×660×870mm	1500×210×660mm	1560×250×760mm	38.5kgs

## Embalming Washing Table

The embalming washing table provides the professional with a compact workstation integrated to form an ergonomic embalming facility, but also provides an easy to use and convenient handling system.

## Embalming Washing Table

### GA203

### Features:

1. Strong stainless steel frame construction.
2. Tabletop with a drainage hole, made of 304 stainless steel.
3. Provided with a built stainless steel sink, connected wastewater tube, easy to clean.
4. Provide hot and cold shower taps and drainage system.
5. There are adjustable feet to adapt to different surfaces.
6. Custom sizing is available, round or rectangle tube leg structure all available.

Model	GA203	
Size(L)x(W) x (H)	2300*800*850mm	
Packing	Quantity	1Set/Wooden Case
	Size	2380*850*500mm
	G.W	80kgs

## Multifunctional Autopsy Side Cabinet

The Autopsy Side Cabinet is a great transition station as well as a powerful self-contained unit that is a versatile and economical addition to any pathology or histology laboratory.

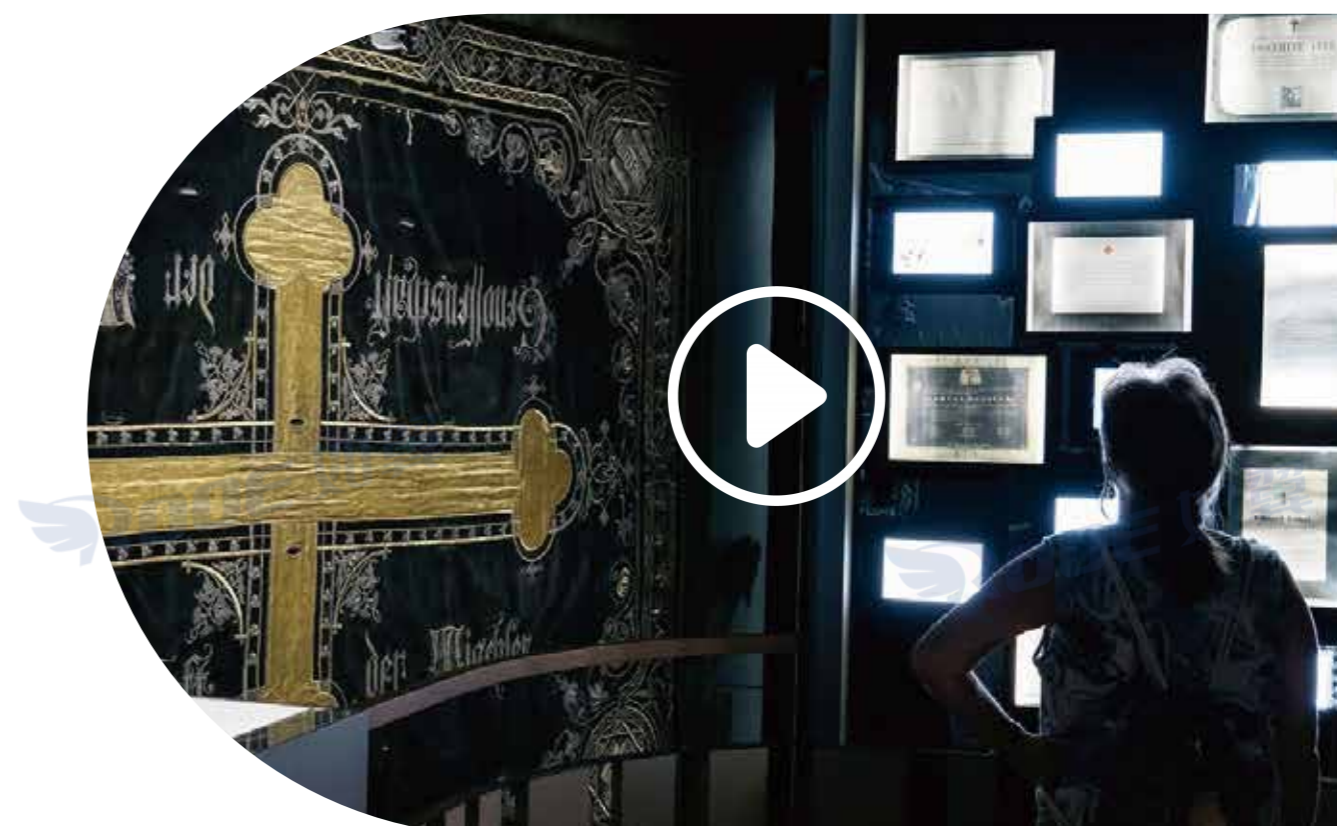

## Multifunctional Autopsy Side Cabinet

### GA2003G

#### Features(Dissection Cabinet):

- 1.The table is equipped with movable sieve partition and the side cabinet is equipped with drawers for placing instruments.
- 2.The louver outlet on the ruler table can quickly purify the air. It needs to be connected with the external extraction fan.
- 3.The sink is equipped with a hair isolator to prevent the hair from getting into the drainage pipe and blocking.
- 4.The pulverizer under the pool can crush the dissected tissue and discharge it through the drainage outlet (optional).
- 5.Table around arc structure, not easy to scale, easy to clean, luxurious and beautiful.
- 6.Equipped with cold and heat regulator, manual faucet and hose (connected to water heater).
- 7.Nine multi-functional mobile spray rinsing guns can rinse the overall dirt of the dissection table.
- 8.There are five flushes on the side of the table to wash the dirt during the dissection.
- 9.The upper part of the LED light, hook, ULTRAVIOLET disinfection lamp.
- 10.The side of the platform has leakage protection device, waterproof socket 220v. 50HZ.
- 11.Stainless steel autopsy cart (optional).

#### Features(Stainless Steel Autopsy Cart):

1. Easily integrated with our autopsy station.
2. Frame and pallet are made of medical grade stainless steel for easy cleaning.
3. Concave table, easy to clean, no dead corners.
4. A manual lifting device can lift one end of the autopsy vehicle to create a slanted surface.
5. Four casters with brakes to facilitate body transport.
- 6.Can be used as an attachment to most autopsy tables.

Specification	
Model	GA2003G
Type A Size	2400×600×1100mm (Double)
Type B Size	1600×600×1100mm (single)
Autopsy Cart (Optional)	
Type A Size	2000×700×800/950mm (Double Crank)
Type B Size	2000×700×800/950mm (Single Crank)

## Multi-functional Forensic Autopsy Table

This flexible and efficient system for autopsy work includes all the features required to complete a post-mortem examination efficiently. We also offer the ideal option for animal autopsies.

## Multi-functional Forensic Autopsy Table

### GA2003A2

#### Features:

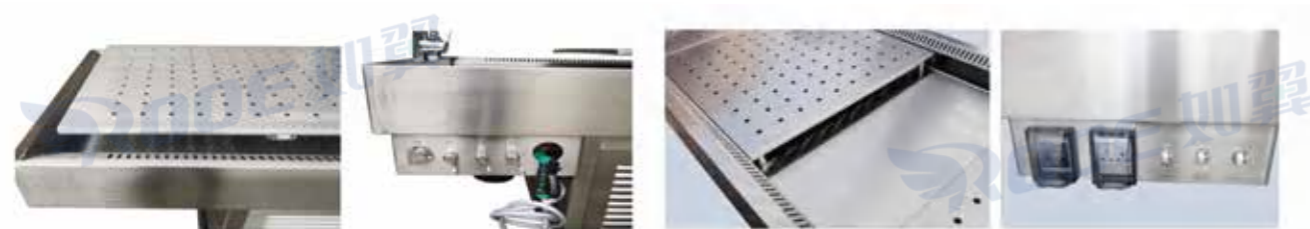

1. Built-in arc connection on the table. Not easy to scale, easy to clean and eliminate.
2. The table is equipped with 3 sieve isolation plates, which can be disassembled and washed.
3. There is hair isolator in the pool to prevent hair from entering the drainage pipe blockage.
4. Equipped with hot and cold regulator, high manual faucet (need to connect water heater).
5. Mobile spray washing gun with adjustable water pressure can wash the whole dirt of the dissecting table.
6. Equipped with infrared sensor faucet, aseptic contact, effectively prevent bacterial cross infection.
7. The mill is equipped with induction motor, which can cut off the flow and resist acid and alkali.
8. Under the pool, the shredder can crush the dissected tissue and discharge it through the drain.
9. Negative pressure ventilation system: The downward way of inclined air outlet on both sides of the inner side of the table can be timely pumped out of the harmful gas during the anatomy process (need to connect the external ventilation system).
10. There is leakage protection device on the side of the platform. Waterproof socket 220V.50Hz.

Model	GA2003A2	
Type	Lifting height	Fixed height
Length	2500mm	
Width	800mm	
Height	750mm	850mm
Height Max	950mm	

## Multi-functional Forensic Autopsy Table

### GA2003C

#### Features:

1. The dissecting table is made of stainless steel, with dual functions of ventilation and dissection.
2. The table can be turned over, the partition can be lifted (stroke 150mm), easy to operate.
3. The pool is equipped with hair isolator, infrared sensor, high hand-operated faucet, hot and cold water temperature adjustable.
4. Mobile spray gun water pressure adjustable, can clean the entire dissection table dirt.
5. There is a crusher under the sink, the crushed anatomical tissue through the drainage pipe discharge.
6. Optional movable plate on the table top can be used for organ placement during dissection on the table.
7. The dissecting table is equipped with 500kg electronic weight scale, which is convenient for weighing and calculating the body and internal organs. (Optional)
8. Double exhaust system: up and down double exhaust design, inclined exhaust ports on both sides, the inner side downward way, all openings around the anatomical table are equipped with exhaust ports, which can immediately discharge odors (need to be connected to the external extraction system), with leakage protection, waterproof socket 220V.50HZ.

## Mortuary Freezer

Our casket lowering devices are unbeatable in the ease of mounting a casket, providing additional protection and support. It can be easily adjusted to fit all graves and can be set up in seconds. Placement arms can support coffins even on steep hills and other uneven terrain.

## Mortuary Freezer

### GA301

### GA302

### GA303

### GA304

### GA306

## Mortuary Freezer

### GA308

### GA309

#### Features:

1. The whole refrigerator is made of stainless steel, which is used to store the corpse.
2. The insulation layer is made of polyurethane foaming machine to accurately control the foaming density.
3. Built-in evaporator, pure copper tube, refrigeration effect is more significant.
4. Equipped with an independent and complete refrigeration system, composed of single machine and single cycle refrigeration system.
5. High precision temperature control, three digit high brightness digital display, easy to observe the temperature in the box.
6. All doors have safety lock design to prevent arbitrary opening.
7. Stainless steel body tray with handle is placed on the roller track for easy entry and exit.
8. Freezing temperature according to customer requirements, and the temperature of each cabinet does not affect each other.
9. High efficiency and environmental protection compressor, environmental protection fluorine-free refrigeration system.
10. The equipment has sound buzzer alarm and light flashing alarm.
11. Keyboard lock, password protection function, prevent arbitrary adjustment of operating parameters.

2. Four rotary casters, two with brakes.
3. Detachable structure that can be easily transferred or installed in difficult areas of crematoria or other building structures.
4. The size can be customized according to customer requirements.

Model	GA503-3
Size: (L×W×H)	1930×820×1310mm (from top roller to ground)
Second layer heigh	810mm
Bottom layer heigh	310mm
Each layer distance	370mm
Max load	500kg

## Mortuary Body Rack

### GA503S

#### Features:

1. Perfect for a variety of corpse storage applications.
2. Made of stainless steel, rust -- proof, strong and durable.
3. Equipped with three layers of tray, with handles on both sides, easy to use.
4. Four rotating wheels, including two brakes.
5. The size can be customized according to customer needs.

Model	GA503S
Size: (L×W×H)	2000×670×1800mm

Mortuary Body Tray

These cadaver trays are very durable and feature a smooth finish to improve durability and cleanliness. Designed for use with Mortuary Refrigerators, Racks, Dissecting Tables and Carriers.

Mortuary Body Tray

GA504

Features:

1. stainless steel structure designed to hold, store and transport the bodies of the deceased.
2. They come with big handles for ease of operation and ergonomics.
3. The seamless design limits the potential for debris buildup that could lead to contamination.
3. Smooth inner Angle, with drainage hole, easy to clean.

Model	GA504	
Material	201 Stainless Steel	
Tray Size	1850mm × 660mm	
Overall Size	2000mm × 660mm	
Max load	135kg	
Packing	QTY	1pc/carton
	Size(L×W×H)	2020×690×100mm
	G.W	15kg

## Mortuary Scissor Lift

The safe transport and handling of bodies is vital to maintaining employee safety. Our lifts all work together seamlessly to provide a safe and convenient experience.

### Mortuary Scissor Lift(Hydraulic)

#### GA500A

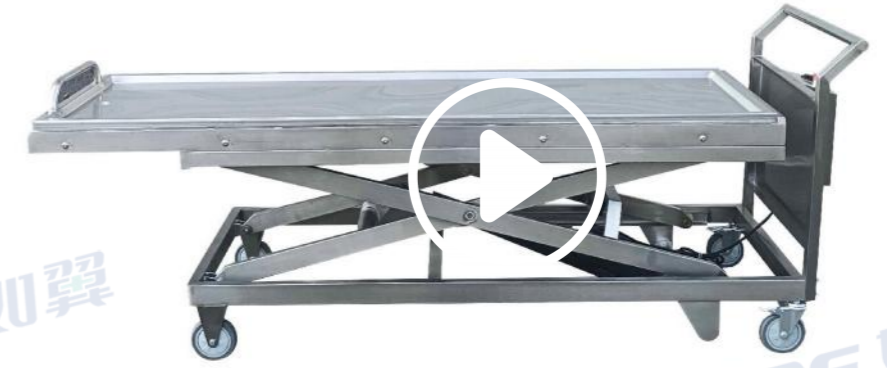

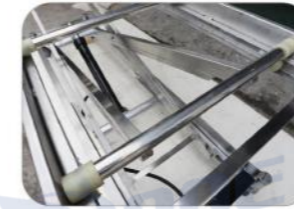

#### Features:

1. Use hydraulic pedal and foot hydraulic push rod for lifting.
2. It is composed of chassis, lifting bracket, moving tray, etc.
3. Equipped with 4 silent universal wheels, including 2 brake wheels, to prevent movement while standing.
4. There are stainless steel push and pull handrails on one side of the cart for easy transportation.
5. There are 5 stainless steel rollers on the lifting top for moving the tray.
6. Used for dissection table or body freezer, saving labor when moving.
7. Optional equipped with a tray, water outlet, four corners concave design, easy to clean.

Model	GA500A		
Type	Single scissors	Double scissors	
Size	2200×650mm		
Material	304 Stainless Steel		
Height	420-1500mm	420-2000mm	
Loading	180kgs		
(Optional)tray specification	1900×610mm		
Packing	QTY	1pc	
	Size(L×W×H)	2200×770×560mm	
	G.W	140kgs	160kgs

### Mortuary Scissor Lift(Electric)

#### GA501A

#### Features:

1. The equipment adopts stainless steel structure, electric control of the whole lifting.
2. It is composed of chassis, lifting bracket, moving tray, etc.
3. Equipped with 4 silent universal wheels, including 2 brake wheels, to prevent movement while standing.
4. There are 800mm stainless steel push and pull handrails on one side of the cart for easy transportation.
5. There are 5 stainless steel rollers on the lifting top for moving the tray.
6. Used for dissection table or body freezer, saving labor when moving.
7. Built-in battery can be used multiple times to deal with such emergency situations as power failure.
8. Optional equipped with a tray, water outlet, four corners concave design, easy to clean.

Model	GA501A		
Type	Single scissors	Double scissors	
Size	2200×650mm		
Material	304 Stainless Steel		
Height	420-1500mm	420-2000mm	
Loading	200kgs		
(Optional)tray specification	1900×610mm		
Packing	QTY	1pc	
	Size(L×W×H)	2200×770×560mm

A hand is shown holding a sheet of music over a casket. The casket is adorned with a large arrangement of white flowers, including chrysanthemums and roses. The sheet of music is the title page of a piece by Claude Debussy, titled 'Clair de Lune'. The text on the sheet includes 'edité by Raymond', 'Claude Debussy', 'Andante, expressif', 'C. Debussy (1862-1918)', and 'pp muted'. The background is a dark, blurred setting, possibly a funeral home or a place of mourning.

Reduce funeral costs and  
achieve a dignified life
