REDUCE FUNERAL COSTS AND
ACHIEVE A DIGNIFIED LIFE

JIANGSU ROOE MEDICAL TECHNOLOGY CO.,LTD.

As a professional R & D, manufacturing, sales of professional companies, specializing in the production of various series of morgue equipment. Leadership with full-time product engineers, custom manufacturing specialists, and experienced sales and after-sale service personnel capable of meeting virtually every need in the medical or mortuary industry.

Our products are mainly body bags, autopsy embalming table, funeral stretcher, body freezer, coffin elevator. The company continues to improve and launch new products, and can customize all kinds of products according to customer needs, has a professional after-sales service team, to relieve customers' worries.

With the business philosophy of "technological innovation, leading development, first-class quality and service first", the company is committed to establishing a complete and comprehensive competitive product platform to ensure that the company's products are always at the forefront of the market trend. Build a high-level equipment base, create a world leading brand.

ABOUT US

Casket Lowering Devices

Our casket lowering devices are unbeatable in the ease of mounting a casket, providing additional protection and support. It can be easily adjusted to fit all graves and can be set up in seconds. Placement arms can support coffins even on steep hills and other uneven terrain.

Features

1. The frame is made of high quality hardened stainless steel pipe.
2. Break system ensures any required descent speed.
3. For ease of operation, the unit is scalable from 62" x 25" to 94" x 38".
4. Each unit of braided tape has a strength of 450 pounds.
5. Flexible drive shaft provides smooth operation on uneven terrain.
6. The cast aluminum head is easily removed to allow access to the internal working parts.
7. The whole ball bearing ensures no noise, easy lifting and long-term service.
8. An adjustable end block ensures that the coffin will not roll off the equipment after positioning.
9. The modular structure of the device, which requires only two people to complete the installation, can be ready for the memorial service in minutes. After disassembly, it is easy to transport and store, and easy to clean.
10. The Optional placer arms are firmly locked in any position to support the coffin.
11. The Optional stand provides a stable platform for your descent device.

Features:

1. The trolley is made of high-strength aluminum, which is light and easy to clean.
2. The height can be easily adjusted by the height handles located at both ends.
3. The mattress is made of black PVC leather, seamless welding, waterproof. Only one person can operate it.
4. Four large wheels with separate brakes that move easily over sidewalk edges and uneven cemetery floors.
5. It can be folded into a compact size for easy storage when not in use.
6. Mainly used for hospital and funeral vehicle transportation.

Funeral Stretcher

Designed for body transport and other industries, it can be operated and used by one person when picking up, loading and handling, allowing you to place two mortuary cots side by side in a larger vehicle to provide you with maximum transport capacity.

Funeral Stretcher

EA-3B1

Features:

1. The stretcher is made of high strength aluminum alloy material
2. The stretcher surface is separable and has a locking device.
3. The height handles at both ends easily adjust the multiple positions, making it very easy to transfer the body.
4. It can be operated by one person when retrieving, loading and transporting
5. Support all body types with dignity.

Embalming Table

The sturdy embalming table provides a simple and effective way to help you perform your duties in the mortuary, where operators can work at a height that suits them and drain fluids efficiently.

Embalming Table

GA201

Model	GA201	
High Position size	2050×770×960mm	
Low Position size	2080×770×870mm	
Weight	37kgs	
Load bearing	272kgs	
Packing	Quantity	1 set/wooden case
	Size	2120×830×280mm
	G.W	50kgs

Embalming Table

GA205

Features:

1. Stainless steel top with extra deep trough for easy flow of fluids.
2. It is equipped with 4 quality universal wheels to ensure easy movement of the device.
3. The drain, located in the center of the foot end, quickly eliminates fluid from the table.
4. Each end can be adjusted independently according to individual working height and displacement.
5. Ideal for anticorrosion and transfer.

Model	GA205	
High Position size	2050×770×830mm	
Low Position size	2080×770×990mm	
Wheelbase	1780×690mm	
Weight	45kgs	
Loading bearing	272kgs	
Packing	Quantity	1 set/wooden case
	Size	2120×840×310mm
	G.W	60kgs

Folding Embalming Table

Folding Embalming Table

GA204

Features:

1. Used for preservative, bandaging and transfer.
2. 304 stainless steel countertop, slope drop on the workbench panel for easy drainage.
3. Both ends can be independently adjusted height, easy to form a slope, to meet the demand for drainage.
4. The drain pipe is located in the center of the foot end to quickly remove liquid from the table.
5. Rotating wheel lock keeps table still while in use.
6. The legs can be folded up for storage when not in use.

Model	GA204	
High Position size	2080×780×950mm	
Low Position size	2080×780×820mm	
Self Weight	40kg

Embalming Table With Cover

The device allows for the covert transfer/transport of deceased patients from hospital wards to mortuaries. The vehicle gives the illusion of being a standard empty gurney, while concealing the body under a special lid.

Embalming Table With Cover(Cone Shaped Cover)

GA201A

Embalming Table With Cover(Round Cover)

GA201B

Features:

1. Made of high quality 304 stainless steel, welding through the quality assurance.
2. Hinged lid with swinging latch, camouflage helps prevent discomfort with other patients and visitors.
3. Four casters with brakes, easy to operate and safe to place.
4. Tables have ramps to drain water to one end and into an optional bucket row that hangs neatly under the frame.
5. The PVC stop valve is located below the drain pipe and is used to stop the flow of fluid while the barrel is being emptied.
6. Ideal for discreet observation in laboratories and all mortuary facilities.

Model	GA201A/GA201B
Width	830mm
Length	2050mm
Table Height	770mm
Maximum loading	200kg

Hydraulic Embalming Table

For forensic staff, make sure you have a sturdy table that will last for years. High quality products are essential for the most accurate embalming and autopsy procedures.

Hydraulic Embalming Table

GA202

Features:

1. High quality 304 stainless steel counter tops for easy cleaning.
2. There are two options for tabletop: 2050×820mm or oversized top: 2160×900mm
3. Anti-fouling plastic base to keep product appearance clean.
4. There are grooves on all sides, designed for draining liquids.
5. Three pedals can quickly adjust the height and Angle.
6. Eight-inch casters are easier to move.
7. Applies to hospitals, coroner's facilities and morgues.

Model	Max Height	Min Height	Load Capacity	Trendelenburg	Reverse Trendelenburg	Stainless Steel Top	
						Standard top	Oversized top
GA202	1000mm	700mm	650 lbs (295 kg)	0°-10°	0°-10°	2050×820mm	2160×900mm

Hydraulic Embalming Table With Ventilation

GA202 Plus

Features:

1. The table is made of 304 stainless steel. The recessed design completely wraps the recessed area of the table top.
2. Hydraulic system controls the whole lifting. Countertops can be flat or tilted at different angles.
3. Double countertops. The upper level is two detachable perforated countertops and the lower level is the exhaust drain countertop.
4. 8-inch casters for central brake control for easy steering and movement.
5. The bottom of the table is provided with an exhaust pipe and air volume regulating valve.

Model	Length	Width	Height
GA202 Plus	218cm	80cm	80-110cm

Mortuary Folding Dressing Table

Mortuary Folding Dressing Table

GA204A

Features:

- 1. Laminated top prevents scratches and stains and is easy to maintain.
- 2. Separate locking mechanism will fix the table in the folding position.
- 3. There are two handles on both sides of the table for easy movement
- 4. Ideal for dressing, transferring, and embalming
- 5. When not in use, it can be folded and stored behind a door or in a closet.

Model	Open size	Folded size	Package size	Gross weight
GA204A	1980×660×870mm	1500×210×660mm	1560×250×760mm	38.5kgs

Embalming Washing Table

The embalming washing table provides the professional with a compact workstation integrated to form an ergonomic embalming facility, but also provides an easy to use and convenient handling system.

Embalming Washing Table

GA203

Features:

1. Strong stainless steel frame construction.
2. Tabletop with a drainage hole, made of 304 stainless steel.
3. Provided with a built stainless steel sink, connected wastewater tube, easy to clean.
4. Provide hot and cold shower taps and drainage system.

Model	GA203	
Size(L)x(W) x (H)	2850x 900x 850mm	
Packing	Quantity	1Set/Wooden Case
	Size	2930×965×520mm
	G.W	100kgs

Multifunctional Autopsy Side Cabinet

The Autopsy Side Cabinet is a great transition station as well as a powerful self-contained unit that is a versatile and economical addition to any pathology or histology laboratory.

Multifunctional Autopsy Side Cabinet

GA2003G

Features:

- 1.The table is equipped with movable sieve partition and the side cabinet is equipped with drawers for placing instruments
- 2.The louver outlet on the ruler table can quickly purify the air. It needs to be connected with the external extraction fan
- 3.The sink is equipped with a hair isolator to prevent the hair from getting into the drainage pipe and blocking
- 4.The pulverizer under the pool can crush the dissected tissue and discharge it through the drainage outlet (optional)
- 5.Table around arc structure, not easy to scale, easy to clean, luxurious and beautiful
- 6.Equipped with cold and heat regulator, manual faucet and hose (connected to water heater)
- 7.Nine multi-functional mobile spray rinsing guns can rinse the overall dirt of the dissection table
- 8.There are five flushes on the side of the table to wash the dirt during the dissection
- 9.The upper part of the LED light, hook, ULTRAVIOLET disinfection lamp
- 10.The side of the platform has leakage protection device, waterproof socket 220v. 50HZ
- 11.Stainless steel autopsy cart (optional)

Model	GA2003G
Type A Size	2400×600×1100mm (double)
Type B Size	1600×600×1100mm (single)

Multi-functional Forensic Autopsy Table

This flexible and efficient system for autopsy work includes all the features required to complete a post-mortem examination efficiently. We also offer the ideal option for animal autopsies.

Multi-functional Forensic Autopsy Table

GA2003A2

Features:

1. Built-in arc connection on the table. Not easy to scale, easy to clean and eliminate.
2. The table is equipped with 3 sieve isolation plates, which can be disassembled and washed.
3. There is hair isolator in the pool to prevent hair from entering the drainage pipe blockage.
4. Equipped with hot and cold regulator, high manual faucet (need to connect water heater).
5. Mobile spray washing gun with adjustable water pressure can wash the whole dirt of the dissecting table.
6. Equipped with infrared sensor faucet, aseptic contact, effectively prevent bacterial cross infection.
7. The mill is equipped with induction motor, which can cut off the flow and resist acid and alkali.
8. Under the pool, the shredder can crush the dissected tissue and discharge it through the drain.
9. Negative pressure ventilation system: The downward way of inclined air outlet on both sides of the inner side of the table can be timely pumped out of the harmful gas during the anatomy process (need to connect the external ventilation system).
10. There is leakage protection device on the side of the platform. Waterproof socket 220V.50Hz.

Height Max	950mm	

Animal Downdraft Dissection Table

GA2003A3

Features:

1. Ventilation workstation for animal autopsy. Pull air/smell down and away from people
2. Type 304 stainless steel structure, easy to clean.
3. Weld joints and joints, sand and polish to match adjacent surfaces
4. Equipped with stainless steel sink with hair isolator.
5. Infrared sensor faucet, aseptic contact.
6. High pressure water gun can adjust the water pressure to wash dirt.
7. Shredders are used to break up dissected tissue.
8. Sunken ventilation, can form a clean air area, will smell down and through the table.

GA303

GA304

GA306

Mortuary Freezer

GA308

GA309

Features:

1. The whole refrigerator is made of stainless steel, which is used to store the corpse.
2. The insulation layer is made of polyurethane foaming machine to accurately control the foaming density.
3. Built-in evaporator, pure copper tube, refrigeration effect is more significant
4. Equipped with an independent and complete refrigeration system, composed of single machine and single cycle refrigeration system.
5. High precision temperature control, three digit high brightness digital display, easy to observe the temperature in the box.
6. All doors have safety lock design to prevent arbitrary opening.
7. Stainless steel body tray with handle is placed on the roller track for easy entry and exit.
8. Freezing temperature according to customer requirements, and the temperature of each cabinet does not affect each other.
9. High efficiency and environmental protection compressor, environmental protection fluorine-free refrigeration system.
10. The equipment has sound buzzer alarm and light flashing alarm;
11. Keyboard lock, password protection function, prevent arbitrary adjustment of operating parameters.

Optional:

- Lighting system
- Door heating system
- Drainage system
- 24 hours temperature tracking printing system

Mortuary Freezer

The mortuary freezer is the most important piece of equipment in the mortuary and is equipped with a quality refrigeration system, freezer compartment, control system and safety features for the long-term storage of multiple bodies.

Mortuary Freezer(Side Loading Type)

GA302

Mortuary Freezer(Side Loading Type)

GA303

Model	Quantity	Exterior size	Weight	Packing	Temperature inside box
GA301 Side Loading Type	1 Corpse	2150×800×1100mm	100kg	2200×850×1250mm	-10°C to 5°C
GA302 Side Loading Type	2 Corpses	2150×800×1750mm	250kg	2200×850×1900mm	-10°C to 5°C
GA303 Side Loading Type	3 Corpses	2500×780×2030mm	350kg	2600×830×2200mm	-10°C to 5°C

Note: Do not recommend three body size loading, as too high, the top layer not very easy to open.

Mortuary Body Rack

Designed for healthcare, crematoria, mortuaries and funeral homes. It can be easily removed for easy storage and added convenience when it must be moved from one location to another.

Mortuary Body Rack

GA503-3

Features:

1. Welded steel frame, able to withstand heavy loads.
2. Four rotary casters, two with brakes.
3. Detachable structure that can be easily transferred or installed in difficult areas of crematoria or other building structures.
4. The size can be customized according to customer requirements.

Model	GA503-3
Size: (L×W×H)	1930×820×1310mm (from top roller to ground)
Second layer heigh	810mm
Bottom layer heigh	310mm
Each layer distance	370mm
Max load	500kg

Mortuary Body Rack

GA503S

Features:

1. Perfect for a variety of corpse storage applications.
2. Made of stainless steel, rust -- proof, strong and durable
3. Equipped with three layers of tray, with handles on both sides, easy to use.
4. Four rotating wheels, including two brakes.
5. The size can be customized according to customer needs.

Model	GA503S
Size: (L×W×H)	2000×670×1800mm

Mortuary Body Tray

These cadaver trays are very durable and feature a smooth finish to improve durability and cleanliness. Designed for use with Mortuary Refrigerators, Racks, Dissecting Tables and Carriers.

Mortuary Body Tray

GA504

Features:

1. stainless steel structure designed to hold, store and transport the bodies of the deceased.
2. They come with big handles for ease of operation and ergonomics.
3. The seamless design limits the potential for debris buildup that could lead to contamination.
3. Smooth inner Angle, with drainage hole, easy to clean

Model	GA504	
Material	201 Stainless Steel

Overall Size	2000mm × 660mm	
Max load	135kg	
Packing	QTY	1pc/carton
	Size(L×W×H)	2020×690×100mm
	G.W	15kg

Mortuary Scissor Lift

The safe transport and handling of bodies is vital to maintaining employee safety. Our lifts all work together seamlessly to provide a safe and convenient experience.

Mortuary Scissor Lift(Hydraulic)

GA500A

Features:

1. Use hydraulic pedal and foot hydraulic push rod for lifting.
2. It is composed of chassis, lifting bracket, moving tray, etc.
3. Equipped with 4 silent universal wheels, including 2 brake wheels, to prevent movement while standing.
4. There are stainless steel push and pull handrails on one side of the cart for easy transportation.
5. There are 5 stainless steel rollers on the lifting top for moving the tray.
6. Used for dissection table or body freezer, saving labor when moving.
7. Optional equipped with a tray, water outlet, four corners concave design, easy to clean.

Model	GA500A		
Type	Single scissors	Double scissors	
Size	2200×650mm
